

whiteman's tipi. Under the roof of a whiteman's tipi ~~contains~~ lies and intrigue. I wish to remain out in the open air. The air is pure, inside impure! ~~Quite~~ (end)
~~right was the old man.~~ I shall try and get some dope on the Hayfield fight before you come. However, we may have to make trip to Bullhead in order to get the story. Little Soldier and Young Eagle do not know anything about these fights. They were too small, so they said. I think One Bull would know and also Old Bull. I am glad that the old man is recovering from his recent accident. I get in touch with him every day, by phone. The South Dakota Indians are hard hit. Not a bit of crops. Last Sunday I was sent as a delegate to confer with Senator Lynn J. Frazier. I told him the true condition of the Indians at Standing Rock. He promised that he would do all he can when he gets back to Washington. I told him that it was only a question of time when the Indian will vanish. That the federal government ought and should look after each individual Indian until the Indian "goes west!" Ho-hecetu! Best wishes to yourself and family.

Most cordiall yours,

Frank Zahn
