Dear Mr. Campbell:

A rather protracted illness has prevented an earlier reply to your letter of May 15th. Our society might be interested in the White Bull drawings. I expect that a new Curator of Archaeology and Ethnology will be appointed for the Society soon and it might be best to present the proposition to him. If you care to quote us a price for the set, we shall take it up here. Our money for such purposes is very limited and, if the cost would run very high, I fear there would be little chance of the purchase.

With best personal wishes,

Yours sincerely,

Historian and Curator *M.*
