Dear Captain Campbell

I can pardon delay in acknowledging your last letter but I have been in a whirl which promises to keep up until mid winter. I have undertaken some forestry work that keeps me hustling.

Your outline of the story of great Americans of Indian blood is fine - also the list. I took your letter to Mr Dixon & he likes the idea - he is in charge & has the Indian Bureau under him. The two Indian Commissioners also approve the idea.

Haven't had an opportunity to see Vice Pres. Curtis but believe it would be best to approach him when the manuscript is ready for publication.

Wishing you luck in your interesting project & assuring you of my sincere interest in the work
Very truly yours
George S. Wheeler
