Dear Captain Campbell

Many months have elapsed since I have heard from you. The Indian Bureau has a new Chief of Education Dr. W. Carson Ryan, a very fine man who is well equipped & well supported. He is getting results. In a chat with him yesterday I told him of your plan to write of Indian heroes for use in Indian Schools. He likes the idea & tells me he was discussing this subject with one of his subordinates recently.

Please tell me of your progress in this subject & also about your life of getting Bull.

My book is about finished - delays occurred in obtaining reviews by State Foresters of the 48 State Stories. 47 are now in & I hope to complete the book during the coming month.

Our next annual meeting of the order of Indian Wars will be held late in January. I hope you can attend.

Cordially yours
George B. Allen
