

Please let me hear from you again soon. You are helping me a great deal. The facts of the man's life, his significance to the world of men are important. but it is essential that I grasp the significance of SB as it was felt by his own people. Otherwise, my book will not hit the mark. And that sort of thing only you can give me. It is very hard to get at it from the Indians themselves- except indirectly.

Cordially your friend,

W.S.CAMPBELL
