Dear Mr. Cambell,

I have read your biography, Sitting Bull, Champion of the Sioux, and I have found it very worth-while as well as interesting. In fact, I am using it as my main reference for the research paper that I am writing for school. The subject of my paper is: "Was Sitting Bull the great chief that some say he was, or the villain that others say?". One of my chapters reviews Sitting Bull's early life, attempting to find indication of his character in those days. My trouble is that I am having a hard time to find anything about his early life. So, I have decided to write you to see if you have any more material on Sitting Bull's early life that you did not put in your biography of him. If you have, I will be very grateful to you if you send it to me.

Yours very truly,

*Roger Blinn*
