Dear Sir:--

I wish to apologize for the delay in answering your communication of the 8th ult. I have been out of the City and your letter has been forwarded from place to place, finally catching up with me after I returned home.

Regarding your inquiry about the Unk-pa-pas, Sioux Medicine Man and Leader, Sitting Bull, of whom you desire more intimate information than that generally known. I feel that I cannot add more to what is available through the already well known biography pertaining to the "Life of Sitting Bull and the Story of the Indian War of 1890-1891" by W. Fletcher Johnson, published by Edgewood Publishing Co."

I have not met Sitting Bull personally and whereas I have made an extensive study of his life through the biography mentioned above, I feel this is the best authority on information pertaining to him. There are a great many writers who claim to have intimate knowledge of his life, but as near as I can trace their statements they all seem to be taken from this part of the biography.

I am sorry that I am not able to give you more information that that which you no doubt already have.

Sincerely yours,

RL/T
