

well - & from personal observation
I am not surprised that she would
as she did - I also know that much
of the trouble with our Air Detachment
was brought about by unfair treatment
some of the army officers, were
just to them - but others simply
graded those Indians with it
was unbearable - and some unfair
methods are still used -

I want to compliment you on your
article and your humane view
of the Indian in general -

I shall return to my home in Rio
& spend my remaining days among
the Pimas - but I would like to
know when & how I can get a copy
of your Life of Sitting Bull -

My hand on my eyes are out - what
they will see & I fear you may
have difficulty in reaching the pearl -
Just let me say again that I
admire you & wish you all good
luck & hope I may hear from you

Respectfully -
E. M. Saunders
