

Ponca City, Oklahoma,
Dec. 10/29.

W. S. Campbell Esq.
Norman, Oklahoma.

My dear Mr. Campbell:

Arrived here almost a week ago and had no way ^{of} going any further. I have "detoured" the Highway 84 and switched off to Stoe Agency where I ran across an Indian school mate of mine and he has given us the best he had except money and tried in every way to help me out but it is so slow but still it gives me a chance to go over the material I had gathered for you.

Thank you for all your helps to enable me to get here and I shall try and come down as soon I am in shape to do so. You see I brought my family consisting of wife and two children and it costs us to go any where but we are here and shall try and see you as soon as circumstances permits. We intend to winter here and as soon as I have time I mean to look for work for my son, or my wife and self. I do not care to ask for any more help from you for you have been so good to me. I shall do my best to get to see you at our early date.

Very sincerely
Robert Higley
