Prof. W. B. Campbell,

Norman, Oklahoma.

Dear friend Mr. Campbell:

I have gone over the data relative to life of Sitting Bull, sent by Francis Bullhead and am satisfied that they are true statements having been given by the class of old timers who were at that conference called by Mr. Bullhead. It is a very hard undertaking nowadays to get such free statements from these natives and much credit is due Mr. Bullhead for accomplishing this work.

I received a personal letter from him stating the many obstacles that came his way when he undertook to gather up the data for the reason, The Bull and other relatives of Sitting Bull objected to any attempt on the part of any body outside of the immediate relatives to give any data relative to Sitting Bull and his career, for they wish to do this themselves. Ida Bull, Cicely Hawk and others participating in the conference, rather approved of this method of telling the deeds of Sitting Bull for them, nothing but true facts would be presented without exaggeration which is a danger otherwise.
