

I have translated all statements made ~~was~~ since - in most cases, had to give the substance of it and then again translated in the way to give more clear and concise way.

I have found several repetitions in the narratives though such incidents may happen more than once. I have heard from DeRockbraine and others but they simply acknowledged my letters to them saying they would send what information they may be able to obtain soon.

I was over to Pawhuska last week and while there I met the Beaulieaus - they used to be at Standing Rock several years ago and learning of your undertaking to write a true history of the life of Sitting Bull, they have become very much interested with your work. Mrs. Beaulieu is a Santee Sioux and having read so much about Sitting Bull - some so grossly false that ^{she} had ^{all the time} hoped ^{some} that ^{one} would give correct story of the life of her great Chief.

Mr. Matthews was out of town so did not see him. As soon as I received some more data shall come down and go over the informations unless you wish me to come sooner -

Very sincerely Robert H. Healy
