

in Correspondance on this general subject,
Also to a Montana friend who was here
when sitting Bull formerly roamed.

I know Gen Miles very well & on the day of
his death I was getting map material for him
in the Congressional Library.

I assume you have both Miles books
& possibly the Memoirs of Frank D. Baldwin written
by his widow.

I wrote up some years ago an account
of Baldwin's exploit of Nov 8 1874 in Texas
and am now hoping to have that battle
site marked.

If I have any data in re Baldwin's
activities which you could use you
are welcome to it

Sincerely yours
W. C. Brown
