about these papers. They practically offered
\$800⁰⁰ for them, but Mrs Camp wants \$500⁰⁰
which is absurd. I know Camp well
and he did what you are evidently
doing - he got 20 summers went out and
examined the ground & talked with
the Durisnoche &c

I am interested in marking the sites of some
of these engagements which entails an immense
amount of letter writing. I copy my own maps either
my Blue Print or my "B.W." like this →

Here I in Norman I'd ask
you for a glance at your proofs
I found about 50 errors - largely
names - in Gen Dett's book & also
a large number in the Balduino
Memoirs but after they were
regularly printed

Kindly return enclosed stuff
as soon as you have read & noted what
you want, and believe me
Sincerely yours W. C. Brown
