

So S. B. knew his time was near at hand. All that S. B. did was to stop his worship and stayed home a good deal. McLaughlin blamed S. B. for the ghost dance when McLaughlin went to see S. B. about the ghost dance S. B. explained to him ~~that he had no power to stop the people from dancing that the people were obsessed with the belief that Christ was coming back to earth to spiritualize them that the game and buffalo were about to return from the south that there would always be plenty, no hunger no suffering no more death no more sorrow, all would be happiness and Christ would rule the world.~~ S. B. said to McLaughlin

|| If you think all this is false let us go down where this belief originated and find out if it is all false or true. I think myself that this was a fair proposition but McLaughlin said there was no money allowed by the Dept to investigate the matter
