

McKnight - Mad Dog

have been at my place
 when coming up to trade
 so I have talked with them
 I am going to see some of
 the older ones before writing.
 The carving of buffaloes fighting
 on Rosebud Creek. The Indians
 say is very old, so old that
 the erosion of wind and water
 has washed away the earth to
 about fifteen or twenty ^{feet} from
 where a human being must
 have stood to carve the picture.
 some naturalist could cal-
 culate how many years
 has passed since then.
 The Indians take these en-
 gravings as prophetic. They
 think that it meant a fight
 was to take place over the
 buffalo land.
