Dear Mr Campbell -

I am sending some things I have written since I came here. I am in the Fort Yates hospital taking treatments for diabetes. It is pretty hard to find anything new as nearly every one has got it. People are so scattered I am sending these so you can be working on it. I am in need of a little money I am taking insulin and it is so expensive. The government does not buy it for patients.

If you can send me the money now I will send the rest of the work as soon as I get home. I have done a pretty daring thing to give you so much information I would not want my letters quoted as Mrs McLaughlin or as my friend. Please send me the money to Fort Yates, care of Hospital.

Truly
Mrs J. F. Waggoner
