Mr Campbell:

Pursuant to <sup>your</sup> gathering of data etc relative to a History of Sitting Bull I wish to make one or two suggestions, realizing that ~~perhaps~~ when you have completed your book it is going to place quite a prominence on the Sioux, especially the Hunkpapa's, amongst the different Tribes of North America, in their nomadic state; therefore too much reliance should not be given one individual, but get all data and information from especially these old timers Grayeagle, Looking Elk, Weaselbear, Crossbear and Birchlinghawk, who, I believe according to their past talks, are more intimately acquainted with the life of Sitting Bull than any other that I know of. Of course this does not mean that I want to belittle Old Bull's statement. Your proposed visit <sup>here</sup> this month has been aired and gossiped by the old timers generally and from what I surmised about the situation Old Bull wants to play the role of a chief which is not so in the estimation of the people.

Yours truly  
Eugene Younghawk
