Dear Mr Campbell-

I wrote to Bullhead to try to find out about S. B. and Shell King's trouble but could not get a reply to my letters, I think the Indians will be coming up this way soon as the weather is fine. I know that S. B. was not the aggressor he merely picked up the <sup>tomahawk</sup> ~~tomahawk~~ to defend himself. some one told me once that Shell King accused S. B. of not dividing the issue of <sup>meat</sup> ~~meat~~ at equal, that that was what the quarrel was about, because it was right after a big killing of cattle that this happened. So many wanted the choice part of the beef each time and when they got an inferior piece of meat once or twice they would take offense and get mad enough to kill some one.
