Dear Mr. Campbell:-

Enclosed please note clipping from this evening Journal which may prove of interest to you.

You may recall me as a brother of Miss Murphy who was in Teachers College at the Platterville Wis location the summer you held work shop there.

I regret it was impossible then for me to attend as we lived in Dubuque Iowa & my work & health interfered.

However we now live in Milwaukee where I am in Real Estate — after tiring of retirement. Subsequent to our moving to Dubuque I wrote many poems & stories of the Early Lead Mines for the Benton Advocate — gratis of course.

Just received a nice rejection letter from Readers Digest on a short story of a Stampede. My partner & myself outrode near where Hall & D. is now located in which we went through a line Dog Town in pitch dark scared cattle after us — lost 23 head. This was in 1905.

It bounced but with letter from Ed attached!
