Report of the Commissioner North-West Mounted Police. Printed by the Order of the Dept. of Justide. Harr Strale Year/1879 "Report of Supt.n Walsh. Wood Mt., 16th Dec. 15th July.-U.S Expidition to Milk River and boundary line. About this date Lieutenant Tillson, U.S.A.T, arrived at this post (via Fort W Walsh) bearing a despatch from General Miles, U.S. ..., requesting the arrest of certain Indians who were suspected of committing m a murdernon the Yellowstone River in the month of March, and were mow supposed to be in the Si Teton Sioux camp. Lieutenant Tillson brought with him a man named Sturms, who was present when the murder was committed, and was wounded while making his escape, and who could identify the perpertrators. Sturms informed me that the party consisted of five Indians, Two Nez Perces, one the "White Eye" and the other "johnson," and three Sioux. The Sioux he could not give any description of, but thought he would know ghem if he saw them again. I immediately set to work to trace these men, and found that the "White Eye" had been killed nine days previous by Crow Indians near the Little Rockies; and that Johnson was in the Tetch camp, situated about thirty males west of this post.

was in the Tetch camp, situated about thirty miles west of this post.

I then concluded to take Sturms to the camp and let him see "Johnson;" giving him, at the same time, an opportunity to identify the three Sioux.

A report having reached me that Gen. Miles had struck a hunting party of Tetons at Milk River, killing four or five, and had crossed the Milk River, amd was moving towards the boundary line; Lt. Tillson requested that I would send an escort with him to the Command.

Having no available men for my excort duty, I decided to have him accompany me to the camp, and after completing my business there with Sturms, I would proceed with him to meet General Miles, who would, mo doubt, by that time be close to type Boundary Line.

On arriving at the Sioux Camp I had "Johnson" brought before me, but Sturms, who was also present, said he was not one of the party. There must have been aat least 2,000 warriors present at the time, and I told Sturms to look throught them, and that i f he rem saw anyone he thought was in the party to point him out to me.

He failed to fecognize any offe of them. For this trip Sturms dishuiged himself by cutting off his beard, etc., and declare t me that it was utter impossibility for the Indians to be able to recognize him.

Sturms then requested to proceed to General Miles' command, saying that as "White Eye" was killed, he did not think anything furth er could be done on the matter.

Owing to Gen Miles' skirmish ojn Milk River, nand the movement of his command horth, I found the Indians in quite an excited state, but altogether their conduct was very good.

Taking six reliable wothing warriors with me as ab escort, I started from the Siouz camp at 12 p.m., and arrived at the boundary line on Rock Creek at 7 p.m., where I met Gen Miles just going into camp immediately south of the line.

Ly Tillson and Sturms then went into Man Miles (camp, and I remained about one mile north of the line.

I met Gen Miles in the evening at the line and the following morning at his samp. Gave him all the information he required concerning the Tetons, assuring him that they were clamorous for peace and would not give him battle.
