

I would be much interested to hear from you (if you can get the information) whether the Peyyemes had their complete sun dance this year and whether they are likely to have it next year. I am still planning to visit them next summer though I have no clear idea what to do about the camping outfit. How about borrowing or buying a tent and living in it you and myself with an Indian? ^(also knows English) ~~(also knows English)~~ The latter would probably be necessary, not only as an interpreter but to act as Indian host for us and give us a better standing with the other Indians. What do you think about these arrangements and the outfit that would be necessary for the occasion?

I made several photos of the 101 Ranch Indians & printed a doz. of your photos on that occasion. Don't mention the cost: it was insignificant.

Hoping that you are well & will let me hear from you, I remain

Yours very truly
 Fredrick Stegole

I will send your photos to morrow.

over!
