I shall get to work at once on our story and send you the result of my labors. I think I can get it out by the middle of July, as desired by the publisher.

Please feel free to make any suggestions or criticisms as you go. I shall trypto bring my work and yours together.

I suggest that, until you begin to get my chapters, you might be doing the tail-pieces and small decorative designs. Though the main lines of the story are pretty clear.

Let me know any ideas which occur to you.

Yours truly

224 West Eufaula
