

Southwest, notably the Hopi & Papago  
you will find many who are  
Provident and saving - They must  
be to live. They are not quite so  
Communist as those you have known  
& felt surely.

Speaking of Caterpillars you doubtless have  
had your mother's story of your own  
experience with the family cat when you  
were 3 years of age & had your mother's  
mother study story of the Caterpillar -  
We found you saying to the "Kitty" -  
down in the dirt - "Stay there Kitty -  
I'm Springing you here surely!"

I recall with much pleasure my  
meeting you in Acapulco & Weatherford  
& had learned of your mother's death - We  
meet the Cels Palmer family here in  
Phoenix - old friends of your mother  
Sincerely yours

James W. ...  
(Brook)
