March 23, 1948

Mr. Ernest V. Sutton
1625 Oak Street
South Pasadena, California

Dear Mr. Sutton:

I am immensely interested in your last letter relating your extraordinary experience with the Indian cures. I have had no such experience personally, but I have been told of astonishing cures performed by their doctors.

It is most kind of you to invite me to visit you and if it is at all possible, the next time I come to California I will try to pass your way. This summer, however, I shall be going East where my younger daughter is being married and am hoping to see my first grandchild.

Cordially yours,

W. S. CAMPBELL
("Stanley Vestal")
