I am sorry I cannot give you any more definite information on the subject and I personally have never made any detailed investigation of source material of early Idaho history. If you could give me a lead as to where your information came from, I might be able to run it down further for you.

I enjoyed reading your Kit Carson very much indeed, and think it a very creditable piece of work. I sincerely trust you do more of the same thing. Sometime, at your convenience, I would greatly appreciate your writing me a little more in detail than it occurs in your book as to just what information you have about the winter or two Carson spent in the Salmon River country in Idaho, as that is a subject in which I am greatly interested.

Like you, I wanted to go to Oxford this summer and couldn't make it, and knowing how I felt, I appreciate just how much you wanted to go.

With best wishes for health and success to you and yours, I am

Very sincerely yours,

*M<sup>rs</sup> Keen F. Morrow*
