

of him. A German (Jasica) came across the Ocean (Miniwauca abasam) He went West, I think it was Illinois. After a while he preached that he was the Son of God, Christ who had come again upon the world to help people. He showed the marks on his hands & feet where he had be put upon the cross. Many people believed in him, some gave him lands, some houses, some farms & some money. He is rich. Women left their husbands, children their parents to follow him. He preaches what Christ did preach so many believed in him & they all say that he is a good living man. He was born in Germany & studied to become a priest, but did not follow his profession but came to this country & passes himself off for the Son of God. Some say that he is either insane or a great cheat. This spring the papers were full about him & some gave his picture which I saw. I think that after being exposed he possibly has few followers among the white people now.
