Sitting Bull Esq.,

I understand that my rashens are stoped, and I am now under guard by the soldiers, and that they are talking of sending me away off somewhere.

They wanted me to stop the dance, and I did not do it, so I understand that is what it is all done for. Will you let me know why they are doing me this way. If you can stop the action taken against me I will take it a great favor.

Respectfully

White Buffaloman
