Dear "Stanley Vestal":

The enclosed Indian fan letter appears to come from a man who knows his subject - might be interesting to correspond with him.

Since there does seem to be some inconsistency, would appreciate a copy of your reply to him. Or did we goof? I hope not, but setting type for charts is something that originated the expression slip between cup, etc.

Your Indian story was picked up by Hal Boyle and went all over the country. But doubtless you will have seen it locally by now. I wish there were some way to pre-determine what these guys would use in their columns.

Cordially,

W.B. Edwards
