

Place the genuine Indian Music (harmonised) on the left hand page, accompanied with full directions for the dancing - the costuming etc - On the right hand page give the poetry -

Plan the whole so that no great preparation is required other than the personnel & the pipes -

Possibly some of the songs could be sung as chorals.

Most would be wordless for the dancing only -

The Dance Songs would have to be lengthened, repeated, or combined -

The ritual would be suitable for an outdoor fête celebrating a mother's birthday ^{or a Housewarming} -
Plan it so

Observe the merits of place, time, idea & impression

As a spectacle - it might be more effective if the 2 dancers were young people of opposite sexes -
