

LADIES BELTS

Our belts are very dressy and appropriate for different occasions, and should not be classed with many of the gaudy pieces offered as Indian. Some of the younger Indian women who have adopted the dress of their white neighbors, wear these, but those who live in the camps and use the regular Indian dress, still wear the heavy metal belts, or, a string tied around the waist. All our belts are made of the very best materials, and the work is of the very best. They are graded as below and we feel sure you will be pleased with any you may select. Please send size.
