MOCCASINS

Probably there is no one article of Indian manufacture that is so well known and is so distinctively Indian as the MOCCASIN; nor is there any one article that is so much imitated. All of our goods are new stock and of the very best work, materials and designs. We do not carry the second hand, worn goods. All of these are made with sinew, and will wear exceedingly well. They are excellent for house slippers, and those suffering from tender feet, will find them a great relief. The following is a partial list of our line.
