

War Dreams

1 16

The three ways the Sioux look in
blood was they saw Gray Hair
2. Scalped, 3. Die of sickness
Their face was long and black.

The way the Sioux could tell
was dreaming out on the war
path. The dreamer would
get up and yell and the other
men would get up and ask
him what was the matter
and send them back.

The chief heard one when
he was in the camp.

Whenever they were going to
war a man got up and said
I feel bad. You folks have done
me wrong and I want some back.
Then some scouts come back and
they had a fight shortly after.
The hard fight began the
man was shot in the thigh
and he died it was hurts.
