

Pension question, as
to increase to \$90.⁰⁰
Vial of Urine taken by
Dr. Wright to be analyzed —
in the case —
Dr. Holcomb pronounced
my case to be, Bladder trouble &
High blood pressure — & age, & my
inability to hold self up —

I will show my right
to allegation in my claim, that
my falling & injuring myself
I was helpless —

At one time in Ft. Smith
Ark. Dr. Bailey examined me
for Pension — He analyzed my
urine, (urine) and he informed me
I was all O.K. for pension. —

In many cases I assisted
in examinations & at times
was myself examined — &
appears to me by Dr. Bailey usually,
but always three med examiners
& Bailey was always one of the
3 —

Roach Young I went with
three others I now am unable
to walk —

But the brotherhood of the
old guard is now broken.
& they are made the stumbling
block of justice — & all on
a act of "Economy" as it were —
& passing out of view — &
our descendants coming on to
be treated likewise or worse —

Oh Abe Lincoln now
to look after us — instead
we have in the Hornets men
who exercise all the ⁱⁿ ~~in~~
~~in~~ inhuman ingenuity
possible to cripple, injure &
cause suffering of the old
guard.
