

Pose & Smell are given  
 by passionate intensity -  
 Expression then is the  
 door where egress & ingress  
 are possible - too often  
 best to be License -

Age produces  
 infirmities - the Mind  
 becomes disgaged as it grows -  
 & unable to perform its  
 natural function - the  
 result - or effect - of the  
 blunted mind is and always  
 of the imagination -  
 the Mind disabled affects  
 the human system enlifer &  
 renders the person helpless -  
 and there is where I stand  
 I have lingered ever since  
 1919 or 1920 - and the  
 effect - of the injury of the  
 mind so far is perma-  
nent & its course un-  
changeable -

2-11-27 - 11:30 a.m.  
Friday -

Rather Murky weather -  
 no good for all except its  
 effect - in favor of the farmer.

Not a word of news  
 from any source or of any  
 kind or nature -  
 too quiet to be enjoyable -

Saturday - 2-12-27 -  
10 a.m.

Very quiet, distressingly so.  
 No papers or no news paper.
