### Thousands Are Named in Indian Land Cases

MUSKOGEE, Ok., April 13. (AP)—  
Fifty more suits involving Indian  
oil and potential oil lands in Semi-  
nole, Creek and Hughes county have  
been filed in federal court here in  
the last two days by attorneys rep-  
resenting Indians of half Creek and  
half Seminole blood.  
The last 50 suits bring the total  
number based on the same question  
and filed within the past two weeks  
to more than 80. All are brought to  
remove clouds from titles to land  
and the last 50 name a total of more  
than 2,000 defendants, and involve  
lands valued by a rough estimate at  
more than \$25,000,000. Practically  
every oil company in the state, is  
named in some petition and many  
of them are named in ten or more.  
The suits are all based on the con-  
tention that the plaintiffs, or plain-  
tiffs' ancestors, were full blood In-  
dians, half Seminole and half Creek,  
and as such were owners of allotted  
lands which fell under the govern-  
ment regulations and restrictions on  
full blood's land.
