ANNIVERSARY OF JUDGE PARKER'S DEATH.

Tuesday was the twentieth anniversary of the death of Judge I. C. Parker, who for many years presided over the local federal court when the latter had jurisdiction over Indian Territory. Judge Parker was one of the most noted jurists in the United States during his incumbency here. Shortly after his death the Indian Territory was removed from the jurisdiction of the local court.

It was Judge Parker who was largely instrumental in the drafting of the school reservation bill, whereby congress appropriated the funds for the establishment of the city park to be used for school purposes.
