A city cannot thrive  
on bonds and taxes. We  
have reached the limit.  
If we want to save what  
is left we must call a  
halt to all further ~~debt~~<sup>debt</sup>  
debts and cut down  
our taxes.

A fine beginning  
towards this blessed  
consummation would be  
to throw off all ginger  
gingerbread government,  
and organize one of  
our own, based on  
common sense and  
healthy economy.
