

I wrote to the mayors of Topeka
Nichita & Leavenworth inquiring
the cost of their city hospital &
the cost of its maintenance
I submit their answers.

Thus these cities may serve
as examples for our imitation

A city's prosperity is governed
by the same rules that control
individuals. Bonds & high
taxes are the ruin of both
\$854,000 in bonds and a
million more in interest is
charged up against the property
of Coffeyville. All this is
burdensome debt and hurts
every person in the city in some
vital point and all of us in
the aggregate
