

What do you think of this
frightful exhibit? Do you
think that sumptuous encouragement
for growth?

To claim that a hospital
costing [#] 35,000 with an annual
interest of [#] 2,100 more and
such expenses there after under
slipshod rule as all public
institutions are sure to be
is to insult the intelligence
of the ~~city~~ people. All this

Mrs. Winslow, literature address^{ed}
to the ladies the toiling patient
suffering workers, the colored
people of our organization with
the promoters & he wants you to
turn your donation for him.

This precious hospital now
is a darling scheme of his
for his own purposes.
