

to remove William Boards from the city commission.

Enclosed is a clipping where the City Manager is attempting to bail out.

In addition the Mayor "is getting out of Politics".

We don't want them just to quit or get fired---we want them tried in Federal Court for the fraudulent statement on the Grant Applications and the misuse of Federal Funds.

The Mayor and Robert Sharkey and their law firm should be the first inmates in the new County Jail; which they illegally got the contract for her friends to build, after your office investigate the fraud.

Sincerely,

Peggy Glave, President

Encls.
