

One such conflict of interest occurred when Robert Sharkey illegally interfered with police complaint #91-18665. That police document has Robert Sharkey's signature on it instead of Paul Levy---City Attorney. Under what section of the City Charter gives Robert Sharkey that authority?

Another conflict of interest occurred, while the Chief of Police was busy promoting Prisons for Profit, when a former police officer, who is now an Environmental Code Enforcer, harassed and used a police tactic on a citizen pertaining to an environmental issue. After the citizen was handcuffed and chained and put behind bars, the police chief was not there to prevent the civilian code officer from standing in front of the bars and taunting the citizen.
