

## **WHO CAN PARTICIPATE?**

Indigenous Nations, organizations and community groups who are interested in giving testimony are welcomed to testify. Those who wish to testify must be accountable to an Indigenous Nation, organization, and/or community group. We ask that you fill out the Application to Testify and begin to prepare to relate your peoples struggle to different International bodies. We welcome spokespersons or the whole group to give testimony because accountability to an Indigenous Nations, organization or community group will be extremely important to this entire process. The success of this effort will depend upon the accountability and clarity of Indigenous Nations, organizations, and community groups who decide to participate.

We welcome you into this process; it is an attempt to guard what is precious to us as Indigenous people and a time to place our prayers and work toward the continued survival of our future generations.
