

My wife is white and my card shows that I'm 98.

If at all possible, I would like to get started on some school grants for my children. The oldest has been making straight A's and very few B's since she started school. The youngest is doing pretty well also and we're proud of both.

I almost lost my leg last September in a hunting accident and currently disabled. I can't go back to work until some doctor comes up with a full report on my condition. So far no luck. V.A. Hospital included. Is there some kind of government aid or help that I can apply for to supplement my income? I tried Social Security and was turned down the first time and now I have appealed. V.A. also has nothing.

I wrote to you a couple of years ago about having a well drilled and you said funds and territory were limited. That's understandable
