

We hope that you and the CHEROKEE tribal council will be able to help us with this project by donating your flag to the Indian Center Museum. The flags should be approximately 4X6 feet in size so they can be seen from a distance. We would also need information concerning the symbolism, colors, designs, and figures found on your flag.

We understand that donating a flag is a sacrifice but we hope you will feel it is well worth your effort considering the educational and public relations benefits your donation will provide. If your tribe does not feel able to donate a flag perhaps you know of an individual or group that would be willing to purchase one for us and have their name represented on the donors plaque. We have already received many flags but we are missing yours. We hope that you will want to be part of the very worthwhile and educational project.

Thank you so much for your consideration.

Jerry Martin  
Director  
The Indian Center Museum
