

received

Our resources are limited, but we want to begin to work on environmental justice issues in a more focused way than we have in the past. We may not always be able to work on every issue that you bring to us, but we will make ourselves available to dialogue with you as much as possible, and provide assistance where possible.

I feel that this initiative can be a very strong supporter of the broader environmental justice agenda. I hope you share my enthusiasm and I look forward to hearing from you in the near future. If you wish to contact me my phone number is 212-727-4461.

Sincerely,

Vernice D. Miller  
Director, Environmental Justice Initiative
