Dear Principal Chief,

I have sought many avenues in our government to no avail and thought it would not hurt to try my association as a Cherokee Indian: The problem started sometime ago when I was illegally fired from the local FAA center.

Last year the St. Louis, Missouri office of military and civil service records sent me my complete records by the request of the local FAA center (my last government employment).

My point in writing you is to see if we could get some legal assistance from the Cherokee Nation.

In closing, we (my wife and I) and possibly our son Jack Jr., would like to visit with you briefly; we plan to be in Muskogee before the month is out on VA business.

We have a really wonderful family; Jack Jr. works for SWBT Co. and our two daughters are school teachers—one in Tulsa and one in Harrah, Oklahoma.

Feel free to call us "collect" if you would like and we could arrange time to be in Tahlequah.

Thanks,

Jack W. Payne, Sr.
