Dear Wilma Mankiller!

I hope this letter reaches you in good health. I got your adress from Yet Si Blue/Janet Mc Cloud, ~~wh~~ Since 10 years I work on issue of plastic medicine people, beginning with my contact with Philipp Deere, who first pointed us towards that issue. First of all I worked to gather informations on Swift Deer and publish them. So I published e.g. his fucking stuff on "Cherokee sexuality" and the response of your tribe. Now I try to publish in German translation your Resolution 22/92.

So I now have a question: In the German speaking countries, especially in Germany, there is a well known Cherokee "shaman", "spiritual teacher", "priestess" called Dhyani Ywahoo. She wrote a book about Cherokee Indian teachings called "Am Feuer der Weisheit. Lehren der Cherokee Indianer". Published by Theseus publishers in Zürich/Switzerland. She is Chief of Sunray Meditation Society (Box 308, Bristol, VT 05443, USA - maybe an old adress), which has a strong organisation in Germany with the headquarter in Munique. She did workshop e.g. in the "erotic" sex-center ZEGG in Berlin, a community which is between alternative movement and New Age and which also made seminars with pupils of Swift Deer. My question: Is Dhayani Ywahoo, who refers to Philipp Deere and Mad Bear, an authorised Cherokee traditional spiritual teacher? She claims to be a member of traditional Etowah-group od Eastern Cherokee. She claims to be the 27. generation of the clan of the Ywahoo. She writes, that the highest chief of Etowah-Cherokee-Nation is Hugh Gibbs.

So I request you to write me informations about this woman. We need such informations for our support/information-work in Europe. Plastic medicine people do harm to Indian nations and theier struggle for survival. They di harm to our people too, who are led towards a not so true, superficial, "magic" spiritual way.

Sincerely yours

Amy Shambly
