Wilma,

I was so pleased when my husband gave me your autobiography for Christmas. I was hoping to have you and Charlie autograph it the next time you where in our office, but as they say "the best laid plans of mice and men"; my husband has been transferred to Kentucky and I am to follow soon.

So would you please forgive the imposition and know that I truly treasure having met you both.

Wishing you the best in all that you do.

Sincerely,

Lana J. Melton,
Office Manager
