Dear Wilma,

I noticed in the newspaper a day or so ago that you are back in Tahlequah. So happy to hear that you are up and about.

I have a friend here in Fort Smith named Kay Feild. Kay is a local psychologist and a lovely lady. During a conversation just a couple of days before you went into the hospital, Kay mentioned that you were one of the women she most admired. I suggested that I would communicate with you to see if there might be a possibility of Kay coming over to Tahlequah to have lunch with you some day. If you get to feeling better and have time to visit with one of you unknown admirers, let me know and I will have Kay contact you.

I assure you that Kay has no ulterior motive, just a burning desire to meet a woman on her "top five list of people I would love to have to dinner."

Pleased to know your health is on the mend. Look forward to hearing from you or Nita.

Sincerely,

Jim Williams
