

Chief Wilma Mankiller - Page 2
March 16, 1993

I am now in the process of writing to recognized Native American Indian leaders to solicit their views on these matters. Several have already indicated their beliefs, including for example, Chief Floyd E. Leonard of the Miami Tribe of Oklahoma. Should you be willing to do so, I would very pleased to hear your personal point of view and what you think generally the point of view is of those you represent. As Chief of the Cherokee Nation your analysis would be of particular value.

Thank you in advance for any help you might give.

Sincerely,

John R. Brazil
President
